PROFESSIONAL SUMMARY

Full-Stack Developer with **5+ years of hands-on experience** building production-ready frontend interfaces and backend services using **Node.js, Nest.js, Express, React, Vue, and Svelte**.

Strong background in CRM systems, corporate platforms, high-load modules, and internal enterprise products.

Skilled in **module architecture, API design and optimization, legacy system refactoring, performance tuning, and bootstrapping project infrastructure from scratch**.

Comfortable owning features end-to-end across the full development cycle.

CORE TECHNICAL SKILLS

Frontend

React • Vue • Svelte • TypeScript • SPA development • UI architecture • Canvas

Backend

Node.js • Nest.js • Express • REST APIs • GraphQL • WebSockets

Databases

PostgreSQL • MongoDB

DevOps / Tools

Docker • Docker Compose • Webpack • Vite • Git • CI/CD basics

Specialties

Module architecture • Performance optimization • Refactoring • MVP development

PROFESSIONAL EXPERIENCE

Bright Technologies - Full-Stack Developer

Jan 2025 - Dec 2025 (1 year)

Tech: Vue, Svelte, Nest.js, Express, PostgreSQL, Docker

- Built UI features using Vue and Svelte; integrated frontend with backend logic.
- Developed backend APIs using Express and Nest.js.
- Maintained and improved existing modules across the stack.

Key Achievements:

- Successfully migrated a production backend service from **Express to Nest.js**, improving code organization and maintainability.
 - Built a fully interactive **Gantt chart on Canvas** from scratch.
-

1T - Full-Stack Developer

Jul 2022 - Dec 2024 (2y 6m)

Tech: React, Vue, Express, Nest.js, WebSockets, PostgreSQL, Docker

- Developed frontend features and UI components using React and Vue.

- Contributed to backend logic and integrations with internal services.
- Improved overall code quality through refactoring and modularization.

Key Achievements:

- Built a real-time **messenger module using WebSockets**.
 - Designed and implemented a **custom plugin system** to extend CRM functionality.
-

Individ - Frontend Developer

Sep 2021 - Jul 2022 (11 months)

Tech: Vue, Webpack, JavaScript, REST

- Developed SPA applications in Vue and implemented UI layouts.
- Integrated frontend modules with backend services.

Key Achievements:

- Built a **universal project starter module** (Webpack config + UI Kit), improving team productivity and project onboarding speed.
-

Labmedia - E-Learning Developer

Oct 2020 - Sep 2021 (1 year)

Tech: Vue, JavaScript, Canvas

- Created interactive learning modules and implemented UI layouts.

Key Achievements:

- Developed a flexible testing system featuring **drag-and-drop, matching exercises, and text input**.
 - Designed an extensible architecture for interactive e-learning modules.
-

EDUCATION

Yaroslavl State University (P. G. Demidov)
Bachelor's Degree - Information Security (2017–2021)

STRENGTHS

- Legacy system migration & refactoring
- Strong architectural thinking
- Rapid MVP development
- Working with complex business logic
- End-to-end responsibility & independent problem-solving
